8° Edition AMF Research Grant POSTPONED TO 2021

The Fascial Manipulation Association has approved the eighth edition of the AMF research grant for the promotion and support of research dedicated to the treatment of pain, anatomy and pathology of the fasciae and, in particular, research regarding the application of the Fascial Manipulation method.

All AMF members are eligible to apply for this grant.

Field: Degree thesis studies or other scientific papers regarding research about the fascia or clinical studies regarding the Fascial Manipulation method will be accepted.

Objective: scientific research regarding the causes and the prevention of fascial pain and/or treatment of fascial dysfunctions.

Grant:

First: 3.000,00 € (three thousand euro) ; the money prize will be awarded only if the winner will present his/her presentation during the MFA Congress (Padova June 5, 2021)

Second: presentation of the research during the FMA Congress (Padova, June 5, 2021) and his/her abstract will be put into the ATTI of the Congress.

Third: presentation of the research during the FMA Congress (Padova, June 5, 2021) and his/her abstract will be put into the ATTI of the Congress.

Regulations: this work must be presented in a minimum of 1,500 words and should include: introduction, materials and methods, results, discussion and conclusion. The study can be either a recent publication or ready for publication.

Applications: available at www.fascialmanipulation.com. (Members' site – documents). Email to association@fascialmanipulation.com before April 30, 2021.

Evaluation: the scientific committee of the Fascial Manipulation Association will examine all applications. General criteria:

- originality and innovation of the study
- scientific quality of the study
